What more could you ask for?

CYCLING: Experience the ride of your life! Cycling is a fun, athletic workout that closely mimics a true biking experience...all from the comforts of an indoor studio! Speed, terrain and intensity vary in each class, improving cardiovascular endurance and boosting lower-body strength. Advanced sign up required, space is limited.

TURBOKICK: Kick, punch & groove your way to a brand new body in this action-packed, super fun, & effective cardio workout! TurboKick is a unique blend of cardio-kickboxing, sports drills & simple dance moves in a party-like atmosphere. MIND / BODY CLASSES (BYOM – Bring Your Own Mat)

GENTLE YOGA: Find inner balance and cultivate mindful awareness in this soft, relaxing, more nurturing practice. Gentle Yoga allows time for more detailed instruction and is less physically challenging than our Vinyasa-inspired classes. Emphasis is on self-awareness, use of breath, proper alignment, and honoring the body. Appropriate for all levels or for those who prefer to move at a slower pace.

YOGA FLOW: Build strength, balance and flexibility as you link breath with movement in this Vinyasa-inspired class. Students will move through a flowing series of Yoga postures while focusing on proper alignment and inner awareness of mind, body, and spirit. The sequence of postures may differ from class to class but will include warm-up, some variation of Sun Salutations, a dynamic standing series, balance and or core work, and various joint openers and stretches. All classes will conclude with final relaxation, leaving you feeling centered and calm. Appropriate for all levels as modifications will be offered.

POWER YOGA: A dynamic, faster-paced class that will tone your body while disciplining your mind. Power Yoga consists of an energetic series of Yoga postures done in sync with breath (Vinyasa-style), with an emphasis on moving fluidly from pose to pose. The result is an enhanced physical strength and stamina, improved flexibility and a calm yet focused mind. All levels welcome, with modifications offered for new and advanced students.

STRENGTH CLASSES

BODYPUMP: BodyPump is the original Les Mills barbell class that strengthens your entire body – FAST! This 45 or 60-minute workout will challenge all of your major muscle groups by using the best weight room exercises like squats, presses, lifts & curls. Using the proven BodyPump formula of lower weight loads combined with higher repetition movements, you'll burn fat, gain strength and produce lean body muscle without bulk. Great music, highly-trained instructors and your choice of weight will inspire you to get the results you came for, and have fun doing it! Space is limited. New participants should arrive early for set-up instructions.

DYNAMIC STRENGTH: A total-body strength class that uses of all of the various fitness "toys" in the studio, including dumbbells, bands, gliding discs, balance pods, Physio Balls and more. Set to music, this non-cardio class will shape and tone your body, while building strength and muscle endurance.

PURE STRENGTH: Work your muscles by learning to lift heavier with fewer repetitions. This class will promote strength, increase bone density and boost metabolism, allowing you to burn more calories even while at rest. Dumbbells, resistance bands & your own body weight will be used.

CARDIO & STRENGTH CLASSES

CUSTOM CARDIO: Dance your way to better health with tunes from the 60's to contemporary hits of today, including pop, latin and a little bit of country. This low-impact cardio class is easy to follow and great for anyone, since YOU choose the intensity that meets your needs. Muscle lengthening and relaxation will provide the perfect ending to the workout.

INSANITY: A perfect adaptation of the *insanely*-popular at-home workout, the health club version of Insanity has been designed with the Group Exercise participant in mind. Insanity exercises are cardio-based and intended to chisel you from head to toe, using your body weight as resistance. With Insanity-certified instructors, this class gives you a safe, challenging, results-driven experience in 45 or 50 minute formats. Modifications are shown throughout class in order to provide the ultimate workout, regardless of fitness level.

PUMP & STRETCH: Enjoy a 40-minute express version of BodyPump followed by 20 minutes of yoga-based stretching.

TRX: This challenging 45 minute class will have you breathing hard and feeling muscles you never knew you had! TRX works the whole core all the time, so get ready for great abs and a strong back in addition to a toned, sculpted body! TRX will incorporate strength, flexibility, power, endurance and core into each circuit-style workout.

CORE TRX: 20 minutes of mat-based core work, followed by 20 minutes of TRX exercises.

ULTIMATE INTERVALS: Interval or "burst" training is one of the fastest ways to lose fat, preserve muscle and get the most out of your workout time. With Ultimate Intervals, you get it all: 40 minutes of burst training, functional strength exercises and a lengthened cool-down to round out the workout. An array of modifications will be shown so that everyone succeeds. **Monday 8:45am class is CARDIO ONLY.**
